SAGE TEA DANDY

Back Color and Luster to Hair.

You can' turn gray, faded hair beaunight if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied. Those whose hair is turning gray or

becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful. This is the age of youth. Gray-

unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few Mrs. Percy Hickling, Mrs. Charles
